**Watch for Moose!** Your chances of seeing moose along the highway are good (almost guaranteed on May and June mornings). At night, however, moose (and deer) pose a serious danger. Stay alert and never exceed the speed limit (60-70 km/hr is even better) and you may avoid an expensive, or possibly fatal, collision.

**Kilometre markers** at one-kilometre intervals along Highway 60 indicate distances from the West Gate (at Km 0). By referring to kilometre markers and this map, you can easily locate Park facilities. The Visitor Centre is located at Km 43.

Cell phone service is not Park-wide; generally, it is limited to 3 kilometres on each side of Hwy 60 and, even in this area, service can be "limited" to "none."

**Viewing Wildlife... be careful!**  
 Pull onto the shoulder, safely off the pavement.  
 Watch your children!  
 Watch for traffic!  
 Stay at a respectful distance from wildlife!
